Mikrotech to present at the SME Micromanufacturing Conference and Exhibition

Mikrotech, LLC announced today that John Whynott will be presenting at the SME MicroManufacturing Conference and Exhibits in the Drury Lane Convention Center, Oakbrook Terrace, IL USA on Tuesday April 5, 2011 at 10:50 AM CDT. The presentation title will be “Maximizing the Benefits of Converting to Micromolding for Your Next MIS Device.” Visit the <http://www.sme.org/micro> website for additional information.

Mikrotech is a leading full service micromanufacturer of custom-designed components and subassemblies for medical devices used in minimally invasive surgery. Mikrotech offers a comprehensive range of services to support MIS designers and manufacturers in all phases of the product development cycle: [micromachining](#), [micromolding](#), [insert micromolding](#), micro subassembly and design and manufacturing engineering assistance.
